

HAMID MAHDAVI

Senior Structural Designer | BIM & Digital Engineering Lead

 Email: mahdavi91hamid@gmail.com

 [linkedin.com/in/hamid-mahdavi](https://www.linkedin.com/in/hamid-mahdavi)

SUMMARY

Senior Structural Designer with more than 10 years of experience in structural design. Proficient in BIM workflows and detailed structural drafting, with experience in Canadian residential wood-building design.

PROFESSIONAL EXPERIENCE

Fooladtechnic International Engineering Company (**FIE Co.**)

Jan 2025 – Present

◆ Digital Engineering Lead

- Implementing **Building Information Modeling (BIM)** workflows.
- Designing engineering data architecture for predictive quantity estimation (AI/ML-ready datasets)
- CDE setup, document digitalization, and workflow optimization.

Jul 2023 – Present

◆ Senior Engineer (Value Engineering Group)

- Led the evaluation of structural and architectural designs prepared by engineering teams from both technical and economic standpoints.
- One case involved applying section 6.7.2 of ACI 313-16, allowing the neglect of overpressure effects from stored material in silo foundation design. This optimization eliminated the need for 71 concrete piles (each 25 meters long), significantly reducing construction costs.

Mar 2021 – Jul 2023

◆ Project Manager

- Implemented value engineering for one of the company's projects, improving the cost-benefit ratio of the sports hall steel structure by 20%, which led to the CEO appointing me as Project Manager.
- Led EPC contract execution of a **sports complex** and **artificial lake**, overseeing structural, architectural, and mechanical design, detailing, and on-site supervision to ensure compliance and optimize efficiency.

Aug 2018 – Mar 2021

◆ Structural Designer

- Design of various industrial structures, including **industrial warehouses, workshops, furnaces, screening structures, pipe racks, equipment foundations, material handling systems, electrical rooms, pump stations**, and more.

Deesman Co.

Sep 2016 – Aug 2018

◆ Structural Designer

- Designed a variety of **precast concrete structures**, notably the 10,000 square meter Grand Market. Additionally, specialized in the design of **precast Glass Fiber Reinforced Concrete facades** for residential towers exceeding 40,000 square meters.

LEADERSHIP

◆ Freelance Structural Designer

Oct 2014 – Present

- Provided structural design for 20+ industrial and residential projects, ensuring compliance with local and international specification codes.
- Led a team of 4 engineers and drafters, optimizing workflows to deliver projects on time.
- Portfolio available upon request.

EDUCATION

◆ Master of Science (MS)

Oct 2014 – Sep 2016

- Civil Engineering (Structures) from Sharif University
- GPA of 3.45/4.00,
- Received admission on merit.
- Thesis Title: Comparative study of life cycle cost of steel and concrete building systems

◆ Bachelor of Science (BS)

Oct 2010 – Sep 2014

- Civil Engineering from Isfahan University of Technology
- GPA of 3.47/4.00,
- Graduated with top honors.

TECHNICAL SKILLS

◆ Structural

• Structural Design & Analysis

Applying the relevant provisions of ACI 318, ASCE 7, AISC 360/341, and Canadian codes including NBC Part 4 & 9 and CSA O86, with the ability to quickly adapt to new codes and standards as required.

• Structural Drafting & Detailing

Proficient in creating detailed structural drawings, shop drawings and reinforcement detailing.
Experience in BIM-based detailing and coordination.

◆ Software Proficiency

- **Analysis & Design Tools:** Etabs, SAP2000, SAFE, IDEA StatiCa, ForteWEB
- **BIM & Drafting Tools:** Revit, Navisworks, Tekla Structures, AVEVA UE
- **Programming & Automation Tools:** MATLAB, Python, Mathcad, Dynamo
